

An R package with the aim to

SIMPLIFY WORKFLOWS OF D6 RESEARCH PROJECTS

Cédric Scherer

An R package with the aim to

SIMPLIFY WORKFLOWS OF D6 RESEARCH PROJECTS
AND MAKE THEM REPRODUCIBLE

Cédric Scherer

4 MAIN FUNCTIONALITIES (SO FAR)

- Create standardized project directories
- Provide standardized Rmarkdown templates
- Rendering of all Rmarkdown reports
- Install a set of common packages

4 MAIN FUNCTIONALITIES (SO FAR)

- Create **standardized project directories**
- Provide **standardized Rmarkdown templates**
- Rendering of all Rmarkdown reports
- Install a set of common packages

RENDERING OF (ALL) REPORTS INTO THE CORRECT FOLDER

The diagram illustrates the process of rendering R Markdown reports into the correct folder. It features three main components:

- Project Directory Structure:** A tree view of a project directory. The 'reports' folder is highlighted with an orange box. The structure includes:
 - project
 - data-raw
 - geo-raw
 - docs
 - admin
 - literature
 - manuscript
 - presentations
 - reports
 - output
 - data-proc
 - geo-proc
 - plots
 - R
 - 00_start.R
 - XX_submit.R
 - .gitignore
 - .Rbuildignore
 - DESCRIPTION
 - NAMESPACE
 - project.Rproj
- New R Markdown Dialog:** A dialog box titled 'New R Markdown'. It has a left sidebar with options: Document, Presentation, Shiny, and From Template. The 'From Template' option is selected. The right pane, titled 'Template:', shows a list of templates with their respective engines in curly braces. A large orange arrow points from the 'reports' folder in the directory structure to the 'From Template' option in the dialog.
- Rendering Functions:** A text box containing the R functions `render_all_reports()` and `render_report("x.rmd")`, which are used to render the reports into the 'reports' folder.

Template List:

Template	Engine
EcoDynIZW Basic	{d6}
EcoDynIZW Data	{d6}
Distill Article	{distill}
Plum Roboto Template	{hrbrthemes}
Plum PDF Template	{hrbrthemes}
Lightweight and Pretty Document (HTML)	{prettydoc}
Lightweight and Pretty Vignette (HTML)	{prettydoc}
GitHub Document (Markdown)	{rmarkdown}
